Data Management, Simplified.

Partner Solution Brief for
Media and Entertainment:
Nexsan SATABeast Xi® and
Atempo Time Navigator™

Scalable Backup-to-Disk Solution

In media and entertainment organizations today, there's an urgent need for backup-to-disk solutions that scale.

The Challenge

Media and entertainment firms have a virtually insatiable appetite for storage, as the number and size of their rich format files continues to grow. While this presents storage challenges, the issues are only compounded when it comes to backing up all these resources. As they look to address these backup issues, media and entertainment firms invariably have a difficult time finding a viable solution, and either resort to inefficient systems that don't scale effectively, or that require the cobbling together of multiple point solutions.

The Solution

Atempo and Nexsan are offering a complete, integrated backup-to-disk solution. The bundle features these products:

- **Nexsan SATABeast Xi.** SATABeast Xi is a high-density storage system tailored to Xserve and Mac Pro systems. Providing full enterprise-class performance, reliability, and manageability, SATABeast Xi can scale up to 42 TB, while requiring minimal rack space (4U).

- **Atempo Time Navigator.** Atempo Time Navigator is an enterprise class backup solution offering unlimited scalability, and flexible data protection enabling companies to meet the most stringent recovery objectives.

SATABeast Xi has been successfully integrated and certified with Atempo Time Navigator.

Proven Solutions

Atempo and Nexsan are leading vendors that offer proven solutions for media and entertainment environments:

- **Complete**, featuring high-density storage and enterprise class backup in a single, integrated solution.

- **Scalable**, with capacity that can range from a single workgroup to thousands of enterprise nodes.

- **Easy to integrate**, featuring native support for Apple environments, as well as for heterogeneous system environments and a broad number of applications.

Product and Bundle Details

Nexsan SATABeast Xi is the first, high density, energy efficient storage solution built for the Xserve and Mac Pro markets. SATABeast Xi complements Xserve and Mac Pro environments in physical look and feel including a GUI that is visually compatible with Leopard. While optimized for Apple environments, SATABeast Xi can be used as a storage solution across heterogeneous environments.

Atempo Time Navigator is a natural complement to Apple's Xserve and storage solutions. It provides high performance, scalable, and reliable enterprise data protection. IT managers can administer and monitor their data protection environment from one single location using Atempo Time Navigator's native MAC GUI and dedicated dashboard widget. Atempo Time Navigator for Mac OS X supports a range of environments from Apple XSan to complex, heterogeneous enterprise infrastructures. Additionally, the Atempo Time Navigator server runs on Mac OS X for full native deployments.

Bundles

Bundles	SATABeast Xi	Atempo Time Navigator
Bundle 1	• 14TB; 42 drive bays • 2 - 1GB ISCSI ports • 2 - 4GB FC ports	• Atempo Time Navigator for Mac OS • VLS with 2 drives • 10 agents; 1 storage node
Bundle 2	• 28TB; 42 drive bays • 2 - 1GB ISCSI ports • 2 - 4GB FC ports	• Atempo Time Navigator for Mac OS • VLS with 3 drives • 15 agents; 2 storage node
Bundle 3	• 42TB; 42 drive bays • 2 - 1GB ISCSI ports • 2 - 4GB FC ports	• Atempo Time Navigator for Mac OS • VLS with 4 drives • 20 agents; 3 storage node

Partner Overview

nexsan TECHNOLOGIES

Atempo

About Nexsan

Nexsan develops and manufactures storage systems and specializes in secure data archives. Founded is 1999—privately held with over 17,000 systems sold worldwide. Nexsan products provide enterprise class reliability, performance and can scale from a few terabytes to multiple peta-bytes. All Nexsan solutions are "Green", highly dense and energy efficient.
